

SANJAY E

Full Stack Developer | Application Developer

PROFESSIONAL SUMMARY

Aspiring Full Stack Developer and Java Developer with a B.Tech in Information Technology and a strong foundation in Core Java, OOPs, and Collections. Experienced in building end-to-end web applications using Spring MVC, Hibernate, and React JS through professional training and internships. Proven ability to implement CRUD operations, manage SQL databases, and develop Machine Learning models for real-world applications

EXPERIENCE

Full Stack Developer Intern

Flashinfo Labs Pvt. Ltd | ARCOT, TAMIL NADU, INDIA

2024/07 – 2024/08

- Built responsive web features using HTML, CSS, JavaScript, and React.js.
- Created automated test suites to validate performance and reliability.
- Engineered robust **CRUD operations** and dynamic UI components to improve application usability and data flow
- Practiced Agile sprint methodologies and version control using Git.

PROJECTS

Fraud Detection in Online Payments | Python, Machine Learning

- Built a predictive system using Machine Learning to detect and mitigate fraudulent online transactions.
- Executed data preprocessing, feature selection, and model training to ensure high classification accuracy.

Food Order Processing System | Java, SQL, JDBC

- Developed a backend system to validate orders, manage status workflows, and automate price calculations.
- Implemented MySQL database integration to securely store order details and manage transactional data

TECHNICAL SKILLS

- **Backend Development:** Java, Core Java, JDBC, Servlets, JSP, Spring MVC and Node JS
- **Frontend Development:** React JS, JavaScript, HTML, CSS.
- **Databases & Tools:** SQL, MySQL, Database Management.
- **Programming Languages:** Java, Python, JavaScript.
- **Core Competencies:** OOPs, Collections, CRUD Operations, RESTful API Concepts, Data Preprocessing

SOFT SKILLS:

Teamwork and Collaboration, Adaptability, Communication, Quick Learner.
